CHAIRPERSON'S REPORT

Greetings to all our members, donors and volunteers, Despite all the challenges we are alive and our work continues to impact animal lives. ”

The animal birth control and anti-rabies vaccination program has become the prime focus of our efforts with the goal of reducing animal suffering on the streets.

Our approach is very methodical and meticulous, because we know it works and gives best results. Our focused catching of dogs for sterilization is in GHMC West and Central Zones - KPHB Colony, Miyapur, Kondapur, Gachibowli, Jubilee Hills and Ameerpet, in these specific areas to create Dog Managed Zones. The city of Hyderabad has grown beyond recognition or comprehension. Never again can one small team solve its animal problems. Dozens of teams of able and willing champions of compassion now patrol the city.

Community Outreach Awareness programs aim to increase awareness about the

benefits of animal birth control operations, how to interact with dogs etc. This has benefitted in many ways, since community residents are feeding, rescuing, preventing abuse, counseling and much more receptive to having the stray dogs in their areas neutered.

I step back in wonder and appreciation.

Covid-19 has arrived, but we must and will continue our work.

Thank you all for your support

It is time to introduce younger members to take on responsibilities.

I remain to guide and advise,

With best wishes

Amala Akkineni

REPORT ON ANIMAL BIRTH CONTROL

/ ANTI-RABIES VACCINATION PROGRAM FOR STRAY DOGS

The Animal birth control and Anti-rabies vaccination program for stray dogs in GHMC West and Central Zones - KPHB Colony, Miyapur, Kondapur, Gachibowli, Jubilee Hills and Ameerpet ensuring these specific areas as Dog Managed Zones. Dozens of teams of able and willing champions of compassion patrol the city.

Awareness for Animal Birth control and Outreach Program :

Community Outreach Awareness programs benefitted in many ways. community residents are feeding, rescuing, preventing abuse, counselling and much more receptive to having the stray dogs in their areas neutered.

Covid-19 has arrived, but Blue Cross of Hyderabad will continue its work.

Community Awareness sessions creates the much-needed awareness of Animal Birth Control for Stray Dogs. Without awareness the program will fail and people will not support the effort locally.

GLIMPSES FROM OUR OUT REACH PROGRAM

Door to door awareness is explained with the rationale of ABC and support requested from community residents. Those with fears and phobias are reassured with measures that protect them. Only after they are pacified does the program commence.

We are overjoyed when dogs previously adopted from our shelter, are brought forward for sterilization operations. The dogs are always very happy to see us!

A wonderful note of thanks for us, from a citizen of Hyderabad

JNTU, Behind Kithu Bazaar
street dogs, have every right to live just as we
do. But their population growth is viewed by many
as a menace. To put a check on this, sterilisation
plays a huge role. Rheemaa is doing an amazing
job in this regard by doing sterilisation ops for
free. pls do not stop this. Since you are
offering, will reach out to you in future as
well.
Thanks again for your noble deed
Oshana

This loving family takes care of the dogs in their neighborhood and are very keen about their well-being. They got five dogs that they take care for, neutered and are very happy with the results. They are an excellent community resource to spread awareness and understanding about the benefits of the program. Community dogs serve most homes as security and companions.

A pro animal citizen from Prashanthi Nagar, KPHB Colony helped round up 30 dogs in his area for ABC. Initially he saw our van picking up dogs in the neighboring area and approached us. When we explained the importance of ABC, he became an active supporter and continues to be a good community resource.

ANIMAL WELFARE TRAININGS CONDUCTED

A training session was conducted by the National Veterinary Foundation at our shelter. NVF Team Dr. Lakshmi and Dr. Johnson, conducted the session along with Dr. Bonnie Campbell for qualified and licensed veterinarians only.

FIRST AID TRAINING

First Aid Training is an initiative of Blue Cross of Hyderabad that helps volunteers learn the basic requirements of first aid to help an animal in need. After the Ambulance Rescue shut three years ago, we found that animals with small and minor injuries or illness could be helped locally and recovered much faster in their own territories. Rescue volunteers with first aid training organized themselves into groups and teams, formed new rescue identities to ensure no animal went without help. During the

Covid lockdown we are happy to say animal injuries due to road accidents came to a complete stop.

It is a six-weekend scheduled program where the trainee learns animal-handling techniques, understands behaviour of stray dogs and learns practically how to give first aid. First Aid teams seen in the picture went to treat stray dogs on the road as a part of their practical. The main objective behind this training is to ensure that animals get timely help. First Aid on time can save a life!

In the month of June 2019 First Aid Training for Batch 4 started and many people from different areas had applied for it but only 17 got selected for the training. Now they actively attend first aid cases in their respective areas.

First Aid Training Certificates were presented by (in August 2019) by Mr. RK Rao and Amala Akkineni to the volunteers who completed the training successfully.

SESSION ON DOG TRAINING

Dog Training is an essential and key part of having a pet. Emphasizing this and many other important aspects of dog training such as animal behaviour, socializing and handling techniques was Ms. Lindsay McKeon from USA at a session on campus, in June. She explained how to approach a new dog and how to train a pet, while also answering queries.

ADOPTION DAY

On Adoption Days many loving families adopt Indian puppies and dogs; and kittens and gave them a loving home. It is our platform to provide homes for homeless pups, where foster caretakers came with their puppies to make best use of our platform.

Note: We do not house puppies at our shelter. We do not encourage or advise groups of puppies to be housed together. Puppies must be vaccinated before being housed in an animal shelter.

Adoption Day ensures pups move from a safe foster care home to the family that adopts them.

There is no better way to spread happiness and joy for animals than by adopting them, and giving them a loving home and family. Here are a few glimpses of the animals adopted into loving homes, by the wonderful people!

Hima bindu Madala, one of our regular and dedicated volunteers, shares her experience of been a part of the adoption day activities.

"On the 29th of December, we hosted our monthly adoption drive at the shelter where we provide a support to foster parents to put their rescued puppies and kittens up for adoption. Families who are looking for a loving pet, visit to adopt them. We had 34 rescues come in, out of which 28 found good homes to grow up in. Other volunteers were ready to receive them, providing puppies and kittens with food and water.

Adoption Day is conducted in the adoption space sponsored by 'MARS' (Pedigree) and the family carry home a bag of puppy food to get started.

"Our volunteers continued to look after the puppies and kittens for the entire duration of the drive, chatted up with some of the fosters and were moved with emotion when listening to some of their rescue stories. It's a miracle how a number of these animals overcame all their struggles and fought with all their might to live on, and to find a family who will love them with all their heart and being.

"We host these drives in hopes to educate the public about Indian dogs who have been left on the streets to die, due to the rise in demand for breed dogs. We hope that these drives allow us to educate them about how very marvelous Indian dogs can be when it comes to intelligence, friendship, or even maintenance!"

VOLUNTEERS' TALK

Meet Mr. Sai Krishna Teja

Blue Cross of Hyderabad is a place where people can find real peace of mind in seeing and interacting with the warm and loving dogs here. We think a lot of stuff in our head as humans and have many assumptions but here the dogs without a leg or eyes are so happy. They have that happy face always when they come to you. When they see a new person in the shelter, they interact with utmost love and affection.

Meet Ms. Chaitrali

Whenever I'm in Blue Cross of Hyderabad I feel like I am at home. My co-volunteers started calling me "oldest volunteer". Since then our motive to serve animals hasn't changed but only the ways in which we are doing it has changed. Presently we moved towards programs like Birth control, Anti rabies vaccination and creating awareness among people. All of us work here with lot of passion, love, dedication and willingness.

Meet Ms. Himabindu

Caring for the rescues has taught me to appreciate and learn from the life on the streets. They are deserving of a comfortable life and so, adoptions are a bliss for us volunteers due to the looks of sheer contentment on the faces of adopters with new additions to their families, all snuggled up in their arms and ready to start a new life. This, in the end, makes it all worth it.

VOLUNTEERS' TALK

Meet Ms. Aparna Challa

'I didn't just stop my service at the shelter boundaries. The basics I learnt from Blue Cross has helped me rescue, treat, re-home and rehabilitate many homeless animals from the streets. Be it, dogs, cats, cows, horses, birds, monkeys, ducks, rabbits, squirrels, guinea pigs, and any animal that I could help. I still visit them and they're all happy with their loving families in their beautiful homes. Had I not thought of taking that first step of trying to help them, would they be the way they are now? It overwhelms me to think of the change I brought in these beautiful souls...and, it all started with Blue Cross of Hyderabad!

Meet Ms. Kashvi Gaddam

A big Thank You to all our volunteers!

You people are so good to the animals and the area they live in is so clean. Fresh water always, nutritious food and you have great affection for the animals. I hope to come back for my fourth time next year, I will never get tired of Blue Cross! God Bless you all! - In a from Norway.

GUIDING STUDENTS IN SCHOOLS

Let us know your view about "Facing Angles"

Name: Aranya Education Officer: Mr. Pavan

School Name: Vijaya High School MOON Blue Cross of Hyderabad

What was the most interesting thing in this session?

The most interesting thing in this session is how much the police officer is happy to us to stay in this stage that they help to us to know how to behave.

What were did you come to know through this session?

By listening this session the day which I visited before coming here that we heard the dog in our class always I want to know more about it.

What was the highlight of the session especially for the topic?

We I want to know more session for the topic I want to know more things about dog that how can we use as our friend that.

What would have the session made more effective?

I want to know more things about dogs that when one more collection with us this session is very interesting.

Would you be encouraged to attempt a pet?

Yes No Actually have a pet

How will did the education officer present the material?

Excellent Good Fair

Would you recommend this program to others?

Yes No

Yes, Please provide reference details (Phone & Mobile No.)

Our Education Officer Mr. Sai Pavan, regularly conducts sessions at various schools across the city. The session for school students is called "Understanding Animals" and is supported by Pedigree-MARS India. The session covers what animals say with their body language. The session also prepares students how to help animals, and how to ensure not to get bitten by a dog, and what to do in the case of a dog bite, for their safety. Mr. Pavan successfully gave awareness sessions to 2000+ students in the span of four months. More schools are interested in conducting such awareness programs in their respective schools too and approach us. This is a positive and welcome sign for holistic education.

GUIDING STUDENTS IN SCHOOLS

Awareness session to students of ZPHS Kukatpally, ZPHS Moosapet

Here is his report:

"Readers! I'm Sai Pavan, working as Humane Education Officer in Blue Cross of Hyderabad. Even though it's been more than half a year at Blue Cross of Hyderabad, I still feel like a

new employee and feel that there is a lot to learn each and every day. I visit schools every month to conduct awareness programs for school children and to educate them about animal welfare.

Last month when I went to schools I received good feedback, which made me feel proud of what I'm doing and got me motivated even more. One of the feedback forms, written by a student named Sravya from Vijaya High School, Shapur touched my heart.

She wrote "By listening to this session, I miss the dog that I left in the village before shifting to Hyderabad. Now I want to go back and bring the dog here". Another student named Shailaja from the same school, wrote "I don't like petting dogs but after listening to this session, I

would like to adopt a pet". It makes me happy that I am able to bring a small positive change in their hearts.

As Phil Collins said "In learning, you will teach and in teaching, you will learn", I learned many things while teaching students. I must thank Blue Cross of Hyderabad for giving me such a wonderful opportunity and I wish for a long lasting relationship with Blue Cross of Hyderabad. Thank you!

“

Thank You to Our Volunteers - Our

volunteers are an important part of our shelter and help us in many ways. From in-shelter support to at-home foster care, volunteers support every facet of our work.”

Shelters are non-profit. This means they are based entirely on donations of both time and money. Our volunteers step in and on many occasions help socialize the animals, spend time with them, walk them and even help clean their cages or feed them. While services are conducted by full-time employees qualified for the work, volunteers provide the caring and support for shelter animals.

We extend a heartfelt thanks to our young volunteers, Himabindu, Sheeba, Manaa, Akshay, Aditya, Sandeep who were a great help during the Adoption Drives that we held.

Roots of Kindness Volunteers visit: Dakshayani Bhalerao, one of their volunteers said "Giving back to the society in their own sweet way are the teenage volunteers of a youth association called 'Roots of Kindness'. Blue Cross of Hyderabad has influenced our mindset since our childhood and we want to help animals in any way possible."

About 50 of their volunteers visited our shelter on June 8th and suggested how they could help us through their association with donations and adoptions. They also learnt in-depth about how Blue Cross of Hyderabad works, our goals, vision and mission. They loved socializing with the shelter dogs, especially the blind dogs. They divided themselves into batches and did volunteering works. Kudos to these young people!

On June 19th, nearly 50 employees of Google visited our shelter. Our Education Officer took an orientation session and then a shelter tour. After that they were divided into four teams who in turn volunteered at the different wards. They all loved to spend their time with the animals and collectively mentioned that this visit was a memorable one in their corporate life. Thank you Team Google!

Students Visit: One visit is all it takes and one visit can make all the difference! Students of Agha Khan Academy visited our shelter on June 2nd 2019 to know more, understand and learn about our shelter and animal welfare. They learnt socializing with foster care puppies at the shelter and enjoyed their day here. The children in the age group of 13-15 years went back inspired to make a difference in the lives of animals and vowed to come back again soon.

We believe that caring for animals can start young and begins with understanding and friendship

Enthusiastic school students of different ages visited our shelter

Volunteers from Humane Society International, India visited our shelter and volunteered

A group of 60 volunteers from Uber visited our shelter

Thank You Team Deloitte!

Team Deloitte visits us as part of their
Year Round Program.

Deloitte celebrated there 'Impact Day' and Weekends with Us

On Deloitte Impact Day their employees visited our shelter on November 27th, . A huge thanks to the team of Rajesh, Roja, Jagadish, Jithin and Sudheer.

United Way Hyderabad Chairperson, Board Members and CEO pay Blue Cross of Hyderabad a visit.

Interning with us this time, during the month of May 2019, was Manaa Ahmad, a first year student from Flame University, Pune.

Sharing her experiences of working with us she said "I would like to thank you for having me at Blue Cross of Hyderabad. I have learnt a lot from this experience. I was also able to meet like-minded people, which was also a good experience. The volunteers who joined this month would also like to thank you for an amazing experience." A bright and hard-working individual, Manaa was responsible for a lot of activities in the shelter during the course of one

month, including guiding and training the new volunteers who joined. She also helped with grooming, walking, socializing, bathing and playing with the dogs.

Internship helps youngsters get exposure to working in an animal shelter while understanding the finer nuances of what goes on, on a daily basis in the shelter. We welcome interns and are open to giving them a chance to see how a shelter is run and what happens behind-the-scenes.

IMPORTANT DAYS CELEBRATED

World Zoonoses Day, World Rabies Day, World Animal Day & National Animal Welfare Fortnight

On July 6th 2019, World Zoonoses Day, we gave **Anti-Rabies Vaccination** for stray dogs in Madhapur and Jubilee Hills.

Present at the vaccination camp were: Mrs. Amala Akkineni, Mr. Baba Fasiuddin - Deputy Mayor of Greater Hyderabad Municipal Corporation, Mrs. Habiba Sulthana and Mrs. Mary - NRR

Puram Site 3 Welfare Association President. Mrs. Sushma Kamal,

Vaccinate to Prevent Rabies!

On the occasion of World Rabies Day on September 28th 2019, a Vaccination Camp at our shelter and at Borabanda area. A total of 203 stray dogs around the camp area and 79 pet dogs were administered the Anti-Rabies

Vaccination, along with 10 cats.

Free Anti-Rabies Vaccinations (ARV) are given at our shelter Clinic, between 10am to 12 noon on Sunday.

On the occasion of World Animal Day on 4th October 2019, we gave ARV to 270 dogs in Rehmatnagar, Borabanda.

Mrs. Mourya Boda

During the National Animal Welfare Fortnight from 15th January to 31st January 2020, Thanks to our Committee Member Mrs. Mourya Boda sponsor of ARV. We gave ARV to 2500 dogs in Kondapur, Gachibowli, Miyapur and Hafeezpet. for this from Brilliant Bio Pharma.

GLIMPSES FROM ANTI-RABIES DAY CAMP

was given to our young and
energetic **Mr. Mahendhar Das**

SHELTER DIRECTOR & CFO REPORT

- by **NSK Kumari**

Hello Everyone!

As CFO with Blue Cross of Hyderabad for 20 years, I had a remarkable year. This year brought us donations from generous donors and big-hearted volunteers in large numbers. We have around 250 volunteers who help us with our activities regularly, apart from 205 new volunteers this year and the interest and support they show towards Blue Cross of Hyderabad makes us more energetic.

They play a major role in helping us achieve our goals and serve and help animals. I also would like to bring to your notice about the record number of operations that we did, by performing 1000 operations in one month. And it is only possible because of our dedicated doctors. I hope the next year is also as good as this or possibly more.

The Deloitte Year Round Program started in September 2019 and we accomplished some good work, making not just the Deloitte team happy but the animals also. Some Deloitte team members also donated money towards treats and feeding materials; Rajesh, Roja, Jagadish and Jithin and Sudheer.

A huge thanks to the Deloitte team Sanjeev, Ankitha,

Deepthi and the United Way of Hyderabad support team of Rekha, Girija, Gauri, Maheshwari, Anusha, Rashmi Srivastava and Ramesh.

Another huge thanks to the Nasscom Foundation team and Jyoti Agarwal for their support.

One breeding pair of stray dogs give raise to 2000 in their lifetime.

This year we implemented the Animal Birth Control for Stray Dogs program in the areas of Kukatpally, KPHB Colony and Jubilee Hills, for total dogs of 4675 male, 5012 female i.e. A total of 9687 dogs thereby reducing the population of 500,000 dogs in the future.

A huge hearty thank you to our

Social Media Team of volunteers i.e. Nita, Himabindhu, Kashif Ali, Ruheena, Abhinav, Usha and Praveenya.

I would also like to thank our other support volunteers, i.e. Shyam Sundhar, Srinivas (ESI), Sarathi, Krishna Teja, Chaitra, Pravenya, Honey, Venkat, Rajesh, Narayana, Vikram Chandak, Swetha, Kashvi Gaddam, Anisha Sharma, Venkat, Aparna Challa, Padmavathi, Jayashree, Naveen, Prasad, Manikanta, Nishanth and many many more. God bless you.

Contact:
cfo@bluecrossofhyd.org

WE MISS YOU

May the eternal journey be peaceful

"Tell everyone that community dogs are very loving and loyal. They need protection, food and water and in return give their lives in service for our security. They only react when their safety and food is threatened. Otherwise they have no reason to bark or bite. Please request people never to throw stones at them. Encourage people to feed them, arrange for their sterilization and vaccination, and if injured call Blue Cross of Hyderabad for help.

I request you to give every creature their space. About one million species of plants and animals are on the verge of going extinct. Humans are the only cause for this tragedy. We must save our planet and respect Mother Nature."

A loving note that he had shared with us.

A. G. Surendranath Reddy

Mr. A.G. Surendranath Reddy was a true protector and saviour of animals. I met him one day many years ago at Blue Cross of Hyderabad and it felt like meeting an old friend. Words never needed be exchanged when he brought an injured animal for treatment. His silent concern and his large heart would provide for any need for the creatures he so loved. He was an inspiration for all of us. It is people like A.G.S Reddy who

make up for humanity's mistakes, and Mother Nature makes sure she sends people like him from time to time, to heal the wounds of her children. Please join me to pray for his eternal journey to be peaceful and surrounded by the love from the thousands of creatures he helped.

With gratitude and prayers from all of us at Blue Cross of Hyderabad,

WE MISS YOU

Our beloved animal friends, who continue to live in our hearts!
Ghawaskar, Queenie, Rupert and Silver.

Ghawaskar

Queenie

Rupert

Silver

Silver -lived with us at the shelter for 18 years and this surely is a tribute to the care and affection given by our BCH staff and we thank them heartily for that.

We were lucky to have had Silver. May she roam in scented meadows forever!

- M. Connolly, Former Shelter Director.

PREPARING FOR A NEW NORMAL

None of us, including me, ever do great things. But we can all do small things, with great love, and together we can do something wonderful”

- Mother Teresa.

It rings so true now, more than ever. In these difficult times of lockdowns and social distancing during Covid-19, it is not just people who are getting affected but also the innumerable stray dogs on the streets. Yes, the very friendly neighbourhood dog that greets you when you come home and barks when a stranger passes by. The same dog that you see around in your neighbourhood all the time.

Suddenly they are out of food and water, because everyone is home. But as a beacon of hope, came our many volunteers and staff, who came to our shelter, picked up the dog food and fed the dogs in their respective areas. They did all this while strictly following government guidelines and safety rules, timings and with

appropriate caution and precautionary measures. We gave free dog food to our volunteers to feed the strays. Huge heartfelt thanks to all of them!

We promptly and efficiently laid down all the necessary protocols at Blue Cross of Hyderabad and imposed lockdown to ensure everyone's safety and are continuing to do the same.

We distributed dog food through a dedicated network of city volunteers to feed the strays. From March 22nd to June 8th, 300 volunteers fed 3200 dogs each day during this period across the city. A big thanks to Pedigree (MARS International) who aided us in this endeavour and Champion Pet Foods.

THANKS TO OUR VOLUNTEERS AND MANY MANY OTHERS

SECRETARY

While we did have to shut our gates to public and respect social distancing regulations for everyone's safety, we are , as ever, grateful to all our donors and supporters who raised their generosity bar and ensured that we carried on helping animals even during lock down.

HOW CAN YOU HELP ?

When you make a donation to the Blue Cross of Hyderabad, you will be directly impacting animals by:

1. Helping implement ABC/ARV program and creating rabies free and puppies-free zones
2. Educating communities to care for the animals they coexist with
3. Supporting resource deficit individuals and rescue volunteers to care for their pets/fosters via our community sponsored clinics.

Additionally, you can choose to sponsor the care of one of our permanently-housed disabled animals or a one-time feeding of all shelter animals as a gift to your loved ones.

With lesser opportunities for people to visit us as we cope with pandemic times, as decided to go virtual. You can now support us or sponsor a spay/neuter by visiting our website or using our scan code(secured by Bharatpe)

For donations please scan below
